Rules

1- Honesty- We believe that honesty is important for pretty much everything. We hope you will do your best to answer truthfully.

2- Accreditation- We will take into account your review and combine it with ours, to accredit the best fitting stamp (1-5).

3- Attempts- You are allowed to get reviewed once a year. We believe this is a fair way for businesses to keep improving, and continually rank higher than they use to be.

4-Transparency- Just like honesty, the test you submit will be made public. No secrets=Less mistakes.

5- Public can make comments/critiques that are appropriate, not offensive, discriminatory, or impolite. All other commentaries will be deleted and users will be warned and will have some etiquettes reminded.

Ranking

We wanted the ranking to be kept simple and clear for you to understand.

You Must pass all 5 Components to receive 1 of the five Badges.

The Value of each Badges

0-3 pts

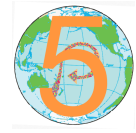

3.1-5 pts

5.1-8 pts

8.1-12 pts

12.1+ pts

The Five Components are graded, add up into points, totaled, and then (1-5) Badge.

Five Components are:

1. Plastic-free: Yes = 0 No = 3
2. Owner Responsibility: Recycling? Plastic Distribution? Plastic Recycling? (i.e Plastic straws, to-go boxes, etc...) score: 5-8
3. User Responsibility: Yes or No ; Y=1 pt N= 0 pt
4. To-Go: Plastic, Styrofoam, Straws, plastic bag, cutlery, etc... = 1 point/plastic, Alternative= mentioned!
5. Plastic Footprint: 0-100%
 - 0-15% = 0 pts. ; no plastic from beginning to end, owner to user. Very Aware.
 - 16-45% = 1 pts ; some plastic, but recycling is existent. Aware.
 - 46-72% = 2pts ; Not Aware, willing to reduce.
 - 73-89% = 3pts ; Not Aware, Not willing to reduce.
 - 90-100% = 4pts ; Plastic from beginning to end, from owner to user. Plastic Pollution Contributor.
